

## Arlington Community Foundation-January 2020

### Poverty in Arlington

Statistic		Source	Notes
2019 AMI family of 4	\$121,000	<a href="https://www.arlcf.org/wp-content/uploads/2020/07/AgebyIncomeRationACS2017_5YR.xlsx">https://www.arlcf.org/wp-content/uploads/2020/07/AgebyIncomeRationACS2017_5YR.xlsx</a>	The 2020 is up to \$126,000!
2019 ≤30% AMI family of 4	\$36,000	30% of 121,000	30% for 2020 would be \$37,800 (round to \$38,000)
<b>2018</b> # of individuals in Arlington living at ≤30% AMI	28,000	<a href="https://www.census.gov/programs-surveys/acs/data/summary-file.html">https://www.census.gov/programs-surveys/acs/data/summary-file.html</a>	150% federal poverty level can be used as a proxy for 30% AMI. I have confirmed this suggestion with Elizabeth Hardy in CPHD.
<b>2012</b> # of households at ≤30% AMI	9,000	This number was used in <a href="#">Arlington County Housing Needs Analysis</a> and comes from the micro data file in the Census ACS data from 2010-12. Needs to be updated! See notes.	Updated numbers <u>do exist</u> but will require housing staff to use special software to get into the updated microfiles, which they intend to do this year.
2019 Highest poverty zipcode	22204	<a href="https://factfinder.census.gov/faces/nav/jsf/pages/index.xhtml">https://factfinder.census.gov/faces/nav/jsf/pages/index.xhtml</a>	
2019 Highest poverty neighborhood	Columbia Heights (also known as Arlington Mill) census tract 2200	<a href="https://www.census.gov/programs-surveys/acs/data/summary-file.html">https://www.census.gov/programs-surveys/acs/data/summary-file.html</a>	Below 100% FPL: Columbia Hgts./Arl. Mill (Ct 2200) -29% Buckingham-(ct 2003) 21% Barcroft- (ct 2701) 20%
2019 School with highest free and reduced lunch	Carlin Springs Elementary School- 81% FRL	Arlington Public Schools <a href="https://www.apsva.us/wp-content/uploads/2019/11/SNPMonthlyEligibilityReport.pdf">https://www.apsva.us/wp-content/uploads/2019/11/SNPMonthlyEligibilityReport.pdf</a>	% of students with FRL: Carlin Springs Elem-81% Randolph Elem-73% Barcroft, Barrett and Drew Elem. 61-62%

See the No. VA Health Foundation tool <https://novahealthfdn.org/interactive-map-opportunity/> to toggle through 20 different social health indicators by census tract, showing neighborhood disparities based on 20 different data points. For example, Buckingham (census tract 2003) has the lowest life expectancy, Barcroft (2701) the highest % of 3-4 year olds not in pre-school; and Columbia Heights/Arlington Mill (2200) the most severely housing-cost burdened.
